Keratin Smoothing Treatment

Natural Keratin Smoothing Treatment is specially formulated to work within the hair's inner layers to reduce the frizz and curl. This revitalizing and rejuvenating treatment seals keratin into the hair to lock out frizz-causing humidity and reduce unruly curl.

Natural Keratin Smoothing Treatment restructures the hair by infusing a special blend of natural keratin deep into the cuticle. The keratin is bonded to the cuticle with a flatiron during the professional treatment application, relaxing the hair's subcuticle layer, and resulting in renewed smoothness, shine and manageability. One treatment gives long-lasting results for up to five months.

Express Blow Out

Express Blow Out is the perfect quick smoothing fix. This unique one-hour service seals keratin to the cuticle, imparting a soft, smooth and silky texture into the hair in just one hour. Results last up to six weeks; plus, hair can be washed just eight hours after treatment, making Express Blow Out the perfect smoothing option for the girl on the go.
