

CADDIE SAFETY/SOCIAL DISTANCING PROTOCOL

As the leader in caddie services we feel compelled to provide to our caddies the following guidelines and protocols for safely providing caddie services during the novel coronavirus pandemic.

Caddies have been instructed to follow all CDC and WHO guidelines for reducing the risk of transmission. To assist in preserving the conditions of the golf course, the caddie will only provide necessary minimum basic operations.

PRACTICE SOCIAL DISTANCING!

Social distancing is deliberately increasing the physical space between people to avoid spreading illness. "Staying at least six feet away" from other people lessens your chances of transmitting and catching this virus.

Our staff remains committed to the health and well-being of our members, guests, caddies and staff. To this end, all caddies will go through Covid-19 Protocol training upon reporting to work each day to insure understanding and compliance.

IF YOU ARE WALKING:

Expect:

A concise and professional introduction

Your caddie will inform you of his intent to practice social distancing while providing the best caddie experience possible. As a safety measure, cleaning the golf ball and clubs will be your responsibility.

Teeing Ground

Your caddie will position the bag by the tee marker and step away 6 feet. The caddie will then give you a hole description. Once all players have hit, he will get out ahead to complete his/her fairway responsibilities.

In the Fairway

The same principles apply. The caddie will place the bag in the appropriate position, step 6 feet away and communicate your yardage. Depending on the outcome of your shot, please take your putter or wedge(s).

On and Around the Green

No one is to tend or touch the flagstick. Carefully repair ball marks when appropriate without getting too close to your fellow players or caddies. Your caddie will provide a read if requested. The caddie will not clean your golf ball or share his towel.

IF YOU HAVE A FORECADDIE:

Expect:

A concise and professional introduction

Your caddie will inform you of his intent to practice social distancing while providing the best caddie experience possible. As a safety measure, cleaning the golf ball and clubs will be your responsibility.

The caddie will work out in front of you, provide hole descriptions/line of play, locate your tee shots, provide yardages, read putts, and maintain the course. He will communicate to you through hand signals.

Teeing Ground or Leaving the Green

Your caddie will provide you with a hole description from 6 feet away and then move into forecaddie position.

In the Fairway

The caddie will communicate your yardage from 6 feet away or more. He/she will maintain the course after you leave. Depending on the outcome of your shot, please take your putter or wedge(s).

On and Around the Green

No one is to tend or touch the flagstick. Carefully repair ball marks when appropriate without getting too close to your fellow players or caddies. Your caddie will provide a read if requested. The caddie will not clean your golf ball or share his towel.

Our staff remains committed to the health and well-being of our members, guests, caddies and staff. To this end, all caddies will go through Covid-19 Protocol training upon reporting to work each day to insure understanding and compliance.

STAY SAFE AND HEALTHY!
